

2020 QUALITY POLICY STATEMENT

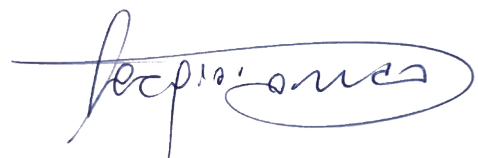

The management of Ronco S.p.A., a company engaged in the “*design, production and marketing of precious objects*”, has chosen to commit to UNI EN ISO 9001:2015 Quality System, to implement its standard as well as to continually improve.

Ronco S.p.A.’s fundamental operational concepts are:

- the satisfaction of its customers and all the stakeholders, internal and external to the organization;
- safeguarding the client’s property

The ways in which continuous improvement is pursued are:

- research, attention and commitment in achieving the quality expected by the client;
- particular attention to customer needs, with constant research of new technologies, in order to always respond in a professional and complete way to market demands;
- attention paid to safety in the broad sense of the term, from the safety of workers, of the materials processed and the values of raw materials;
- respect for the environment;
- good relations with different peoples, cultures and ethnic groups;
- “Risk Based Thinking” approach;
- wide and frequent involvement of all employees is a fundamental prerequisite for product and service improvement,
- adequate infrastructure to guarantee the protection of the customer’s property;
- Compliance with health regulations for the prevention and protection of Covid 19 contagion and implementation of safety regulations.
